

RESPONDING TO INCREASING DROUGHT CONDITIONS IN IOWA – A WEBINAR SERIES

This webinar series is intended to address key questions regarding the development of drought in western Iowa, the expectation for continued hot and dry weather, and impacts on row crops and forages. Attendees will be able to better manage livestock and drought-stressed forages, prepare for use of alternative forages, understand important crop insurance and marketing decisions, and plan for harvest of a drought-stressed crop.

Who should participate?

- crop farmers and livestock producers in drought-affected areas
- ag service providers and ag retailers
- farm managers
- ag lenders
- anyone impacted by drought conditions in Iowa

Continuing education

Certified Crop Adviser continuing education units (CEUs) will be available for each session pending committee approval. Please provide your CCA number during registration if you are requesting credit.

Program and schedule

A single registration includes all 4 sessions. You may attend any or all sessions. Sessions are weekly each Thursday, July 30 – August 20, 2020. There is no cost to attend the webinars, but registration is required. Please use the link below to find more information, the session topics and presenters, and to register.
